

# ProcessBolt

## Vendor Assessment Response Solution

### Automate Responses to Questionnaires in their Native Format

Minimize your workload by auto-populating responses to questionnaires and RFPs using your past question and answer sets. The Enterprise Inbound platform employs a proprietary deep natural language processing (“DNLP”) capability, which enables customers to automatically respond to any assessment or questionnaire based on your historical responses.

#### Product Features

#### Deep Natural Language Processing (“DNLP”)

Patent pending, proprietary DNLP allows you to quickly auto-populate assessments and RFPs from previous responses, ensuring consistency and alleviating redundant work.

#### Format Agnostic

Respond natively to any questionnaire or RFP format utilizing plugins for Chrome, Excel and Word.

#### Share Center Pre-emptive Information Sharing

Includes a data warehouse, which enables sharing of key documents at any time with customers.

#### Collaboration Features

Assign specific questions to your colleagues, or collaborate with them through the app to create your responses.

### KEY BENEFITS

+85% Process Improvement

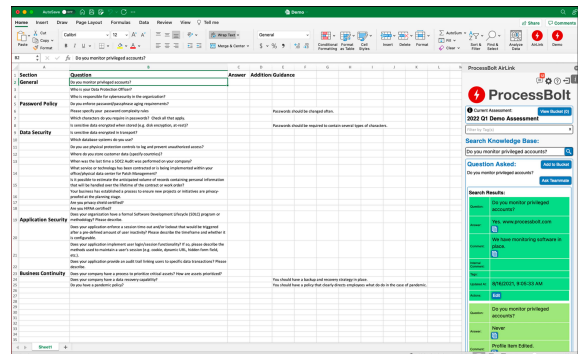

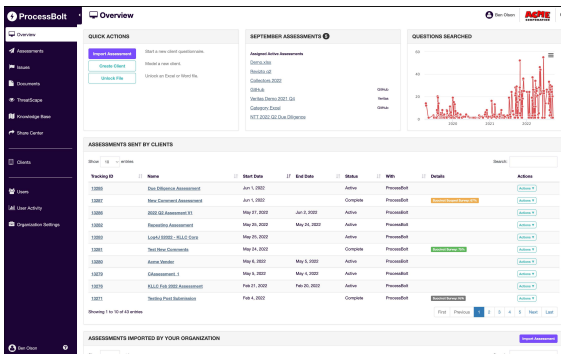

Fast Setup & On-boarding

Ensures Consistency

Reduce Sales Cycle

## ProcessBolt Vendor Assessment Response Solution Pricing

Automatically populate responses to questionnaires and RFPs using your past Q&A sets with our Enterprise Inbound platform.
