

# ProcessBolt

## Enterprise Outbound Solution

### For Enterprises that need to Automate their Vendor Risk Assessments

The Enterprise Outbound solution automates workflows for assessing vendors and internal business units, allowing companies to manage their entire vendor network with ease within the ProcessBolt platform.

#### Product Features

##### Adaptable

Build any assessment framework or leverage our robust library of templated questionnaires such as NIST, ISO, SIG, GDPR, and HIPAA

##### Customizable

Create custom questionnaires with conditional logic/decision trees using a drag and drop designer for any regulatory structure

##### Fully Automated Assessment Process

Set assessments on automated schedules and set periodic auto reminders to ensure that vendors complete the assessment and are responsive throughout remediation

##### Intuitive Visualization

Gain quantitative and actionable insights according to your custom scoring methodology

#### KEY BENEFITS

One-Integrated Solution

Fast Setup & On-boarding

No Service Fees

Dedicated Support
